

A 2 month-long treat from Bread Talk

A delicious surprise was given to the SOS Children’s Village in Alabang for 2 whole months; Bread Talk kindly delivered daily a selection of pastries and bread. At times the daily donation was so generous that it was enough for the children and the entire staff of the village.

The children enjoyed the savory and sweet products which were not only delicious but nutritious. The children and the staff were very grateful to Bread Talk for giving them this special gift. Not only were the pastries something new to taste it also meant that they didn’t have to buy snacks for “merienda” at home or for school, thus saving a lot of money from their school allowances. The children rated the snacks as “masarap at nakakabusog” ...delicious and satisfying.

Bread Talk approached the Springboard Foundation with the offer of donating their products in the Muntinlupa vicinity and the SOS children's village came to mind. The products presented a great snack during meetings or after activities of the children, providing them with a truly yummy and nutritious delight.

A big **“Thank You”** to **Bread Talk** for the two months treat; It was very highly appreciated and the children hope that one day they may again receive breads from Bread Talk.
