

Donation of teaching materials for Wella Day Care Center

Sitio Wella Day Care Centre

On Monday 8th March Springboard Foundation donated a large box of classroom resources to Sitio Wella Day Care Centre.

The class teacher Rowena had written a list of supplies that she needed to help her improve the excellent job she is doing of preparing more than fifty indigenous students in Merville for elementary school. She is a very enthusiastic and caring teacher; it was such a pleasure to see her receive all the supplies she had requested thanks to a donation from Springboard volunteer Emily Hobbs. The donation included flash cards for number and alphabet work, story books, paper, card and a full set of miniature white boards. It is hoped that these will be an invaluable tool for ensuring student participation in such large classes. The students were very excited when using them for the first time whilst we were there.

Springboard Foundation also gave some fruit to the students at the same time and this was certainly a highlight for them!
